

PROJECTS

Smart Administrators System

- Spearheaded the development of the Smart Administrators System, a dynamic web application aimed at revolutionizing administrative processes within university departments.
- Engineered innovative features, including Testimonial Generation and QR Code Functionality, to optimize efficiency and streamline communication between administrators and students.
- Demonstrated proficiency in utilizing cutting-edge technologies such as Spring Boot, PostgreSQL, HTML, CSS, and JavaScript to deliver a seamless and user-centric application experience.

EDUCATION

BSC in Computer Science & Engineering

January 2019 – July 2024

University of Barishal

SKILLS AND ABILITIES

The following are my best skills which I believe are applicable to the position I have applied for:

- Proficient in Java, JavaScript, HTML, and CSS for web development projects.
- Experienced in web development using Spring Boot framework, including building RESTful APIs and microservices.
- Knowledgeable in database management with SQL, including experience with PostgreSQL and MySQL.

PERSONAL SKILLS

- Excellent communication and collaboration skills, with a proven ability to work effectively in team environments.
- Quick learner, adaptable to new technologies and frameworks, with a passion for continuous learning and professional development.

MD. MOONAZ RAHMAN

SOFTWARE ENGINEER

CAREER

I'm passionate about technology and want to start a rewarding career in software development. I know Java programming and have experience in web development with Spring Boot. I'm excited to work on projects that make a positive impact and drive innovation. I'm always eager to learn and grow professionally, and I'm looking for opportunities to collaborate with talented teams. My goal is to excel in a challenging environment where I can use my skills to contribute to innovative projects.
