PROFESSIONAL EXPERIENCE

Junior Software Engineer - Java

Naztech Inc | April 2025 – Present

xSMART – Automated SWIFT Messaging Solution

- Developing xSMART, an automated SWIFT messaging solution for Dhaka Bank, Bank Asia, and National Bank.
- Built scalable Spring Boot services handling complete message lifecycle from creation to acknowledgement.
- Generated dynamic audit reports with Jasper Reports,improving reporting efficiency.

xSCREEN – Automated Sanction Screening System

- Worked on xScreen, a screening module for SWIFT messages to detect sanctioned or watchlisted entities for Dhaka Bank.
- Improved search speed and performance by integrating Apache Lucene for indexing and screening lookups.

Remittance Straight-Through Processing

- Automated cover matching for incoming remittance transactions for Dhaka Bank, Bank Asia.
- Built automated tax and incentive calculation logic as part of the remittance workflow.
- Implemented automated customer notifications for remittance status updates.

PROJECTS

EnterpriseHub

Sophisticated Web-based ERP Platform

- ERP project designed for small to medium companies, including production-based companies.
- Streamline operations with tools for inventory, sales, HR, CRM and accounting.
- Provide comprehensive management tools for various business functions to enhance efficiency

Technology: Microservices,Spring Boot, Thymeleaf, Docker.
Source Code Live Demo

FastChat

WebSocket-Based Real-Time Chat with AI & OAuth2

- Built a real-time chat system using WebSocket with online user presence and low-latency messaging.
- Integrated Google Gemini LLM model for deep, context-aware AI conversations alongside user-to-user chat.
- Implemented secure OAuth2 login with Google, GitHub, and LinkedIn, using PostgreSQL and MongoDB.

Technology: Spring Boot, OAuth2, WebSocket.
Source Code Live Demo

SKILLS

Technical Skills

- **Back-end:** Microservices,Spring Boot, Mysql, PostgreSQL, MongoDB, Redis.
- **Security & Auth:** Keycloak, JWT (Token-based Authentication, Role-based Access).
- **Messaging & Streaming:** Apache Kafka.
- **Front-end:** React Js, HTML, CSS, Javascript.
- **Tools:** Docker, Git, Github, Chrome-Dev-Tools.
- **Familiar:** C, C++, Java, Object-Oriented-Programming, Data Structure and Algorithm, Problem-Solving.

Programming Skills

- **Languages:** Proficient in Java, C and C++; experienced in solving 500+ problems across multiple platforms.
- **Online Judge Platforms:** Codeforces, UVa Online Judge, Beecrowd .
- **Algorithm Implementation:** Implemented various algorithms in C and contributed to the GitHub .

Leadership Skills

Human Resource Coordinator

Startup Barishal

May 2021 – December 2022

- Collaborated with ICT Division, Bangladesh, to boost entrepreneurship in Barishal Division, advancing the vision of "Digital Bangladesh".
- Implemented technical awareness initiatives within the community to stimulate innovation and digital growth.
- Helped speed up digital opportunities in line with ICT Division goals.

Personal Skills

- Great analytical and problem-solving skills.
- Logical and structural thinking.
- Ability to work effectively in teams.

EDUCATION

B.Sc - Computer Science & Engineering

University of Barishal

December 2024
